Objective

To work in an environment where I can use my passion for web and mobile user interface design.

Work experience

UX Designer and Developer

January 2010 - Present

Callander Designs

- Work on a variety of freelance web design and graphic design projects
- Keep UX principles at the forefront of all projects, especially usability and user empathy.
- Develop web projects using HTML5/CSS3 and Bootstrap framework

Product Designer

October 2018 - February 2019

LegalShield

- Ensured designs keep in line with the design system and standards
- Involved in the creation of the look and feel of a whole product
- Worked with Product Management to understand the problem we are trying to solve
- Worked with Research to translate insights into ideas
- Worked with Engineering to collaborate on building a solution
- Collaborated with other Product Designers to iterate and create the best solution possible

Ux Designer Intern

January 2018 - August 2018

Life.Church

- Responsible for the design of web and mobile applications within the LifeChurch product portfolio
- Creatively mixing LifeChurch brand guidelines, platform standards, and user expectations to create beautifully simple designs
- Worked closely with project managers and developers to develop product style guides
- Evaluated, defined, and influenced user experience across LifeChurch products
- Collaborate with leadership, other designers, and key stakeholders on UX requirements

Front-End Web Designer & Developer

March 2015 - November 2017

Pipeline ROI

- Designed and Coded premium and standard layouts for Real Estate Agents and Mortgage Brokers
- Standardize the code base and design template system for a quicker and cleaner turn around time
- Established better systems for the customer onboarding process with design selection and information needed
